00:34:03 Michelle Ferro: Good question Joe

00:35:40 Scot Marken >: Joe, no. The accommodations process is separate from the application process. Also, an IEP is not typically what is used for accommodations. I will take about this later.

00:36:24 Scot Marken >: Joe, no. The accommodations process is separate from admissions. Also, an IEP is not what is typically used for accommodations. I will talk about this.

00:38:38 Anna Maria Tejada: Perfect. Thank you!

00:42:25 Linda W: Can you give a few examples of an accommodation for dining or residential?

01:00:41 Kristin Meredith: Does the office for disability services help with housing/single room that is appropriate for student needs? This would be more of an anxiety need.

01:04:29 Scot Marken >: You need documentation to show and spell out what type of housing needs. Also, sometimes while formally it goes through disability services you may need to talk with residential services separately. Each school will have differences in how roommates are assigned.

01:05:27 Annie Tulkin, Accessible College: Every college will have a process for housing accommodations. Check the disability support office and/or residential living website for housing accommodation requests

01:16:30 brian zysfain: Do you know of / have a list of programs designed for autism that are less rigorous academically? Any in NJ?

01:21:51 Linda W: K&W Guide to Colleges for Students with Learning Differences by Wax and Kravets

01:22:19 Annie Tulkin, Accessible College: Yes. Modified curriculum is not a college accommodation.

01:22:45 Lisa Ford: there's the college Support Program at Rutgers, as well.

01:23:05 Annie Tulkin, Accessible College: Some colleges do offer academic support, like academic coaching and one on one check ins. That is college by college.

01:23:54 Lisa Ford: the books recommended are great! Thank you...

01:24:20 Anna Maria Tejada: Are you able to provide a list of colleges that have programs for students on the spectrum? I know you've listed about 4.
