

Fair Lawn All-sports Stars Program and the Fair Lawn Access for All Committee are happy to Announce an Autism friendly sporting event

We have been working with the Red Bulls professional soccer team to be able to make this special offer. The Red Bulls are having a special Autism Acceptance Night game on April 15, 2023. There will be a number of features that the Red Bulls are offering to make this a wonderful experience. Some of the adjustments they are making include turning down the noise and music that is played during the game. They will also have the typically loud PA announcer turned down as well. They are offering a common gate for people to use to avoid any confusion, as well as sensory friendly rooms that will be available. **The tickets purchased through the below link will allow for the visitors affiliated with Fair Lawn to all be seated in the same general area. When you click on the link it will have additional information and directions to follow for the purchase of the tickets. The tickets will be sent electronically to the individual doing the purchasing and everyone is responsible for their own transportation and supervision while at the game.**

If anyone needs any additional information or has questions they can reach out to Danielle Pinelli at 973-776-8855 or email danielle.pinelli@newyorkredbulls.com
Danielle is a Fair Lawn Alum and also a past volunteer for the Stars program.
