

Hi JTB Fam,

We wanted to reach out to explain how events will be rolling out each month moving forward-- As many of you know, we have recently opened a Morris County branch of JTB. With this, **all clients are welcome at all events**. We understand that some locations in Morris County may be far for Bergen County participants, and vice versa. We will be continuing to run at least three events per month in each county, and will try to run one event per month that is "somewhere in the middle" in order to let all of our clients meet new people! When RSVPing to events, please make sure that you pay attention to the town in which the event is taking place in and that you can make it to the event. Again, all clients are welcome at all events, but need to keep an eye on where the events are-- if they are too far for you and your family to drive to, you should not RSVP that you are coming. We also understand that this new rollout may leave room for questions. Please feel free to email us at any time with any questions you might have. We look forward to serving more clients outside of the Bergen County area!

Please see the events for both Bergen County and Morris County listed below. If you would like to sign up for an event, please reply in a separate email! We look forward to hearing from you.

Bergen County

The graphic features an orange background with the text "Bergen County" in a cursive font at the top left. The main title "October Events" is written in a large, black, cursive font, accompanied by a black bat silhouette. Below this, four events are listed in a vertical column. Each event is represented by a colored rounded square containing the date, an icon, and the event name, time, and location. The events are: October 4th (Axe Throwing 6-8pm, Paramus, NJ) with an axe and target icon; October 10th (Pizza 6-8pm, Westwood, NJ) with a smiling pizza slice icon; October 19th (Pinot's Palette 6-8pm, Ridgewood, NJ) with a paint palette icon; and October 27th (Halloween Party 6-9pm, Wyckoff, NJ) with a skull and moon icon.
