Social Group for Special Needs Adults

Ages 18+

Our Social Night for young adults is a unique Social Skills Group which provides verbal young adults with ASD or delays the opportunities to learn and employ essential social skills. The group setting facilitates learning with age-appropriate peers to practice skills such as initiating and maintaining a conversation, cooperating with differences of opinions, and learning through observation as well as having fun. This is a wonderful opportunity for our special needs young adults to experience a social night “typical” to that of their peers, including food, friends and music. Some of our group have one or more of these skills: driving, jobs, continuing education/higher learning, hobbies, etc.
