

A Support Group for Parents of Children with Tourette & Tic Disorders

Jun 12, 2024 08:00 PM

The monthly NJCTS support group is an avenue for parents who are new to a tic disorder diagnosis to seek support and guidance from parents who have more experience, as well as an opportunity for parents with more familiarity in coping with a diagnosis to also learn and seek guidance.

The group will be facilitated by **Dr. Jeremy Lichtman**, an expert in the treatment of TS and tic disorders who is there to answer questions and provide guidance wherever you may be in your journey.
